

Dispense and Fill Heads with Safety Switch OPTION

Simple, safe, completely automatic

The fully encapsulated Safety Switch prevents accidental starting of the pumping process before the dispense or fill head is fully connected to the dip tube.

FEATURES

- Signaling when completely connected and sealed
- Simple integration into plant control system
- No electrical components in contact with the product

Dispense and Fill Heads with Safety Switch OPTION

Application examples

Automatic signaling after complete connection to the dip tube:

DISCONNECTED

Filling or dispensing **cannot** be started.

CONNECTED

Filling or dispensing can be started **safely**.

Over 1000 dip tubes.

For every container and virtually any length. Over 1000 standard variants. Optional bellows-type length compensator for virtually complete emptying. In addition, the dip tubes can be pre-installed in the containers by the chemical supplier or the container manufacturer. Safe, simple and clean

Dispense and Fill Heads with Safety Switch OPTION

6 good reasons for the QC-System®:

- Clean delivery with preinstalled dip tube
- Fast connection with easy to use key code system that prevents chemical mix-ups
- Emission-free dispensing with integrated ventilation
- Drip-free disconnection
- High purity and chemically resistant materials
- Worldwide in use, well-known references

The AS QC-System® supplies chemical consumers from a wide range of industry sectors

Electronics	Semiconductors Solar power and photovoltaics Flat-screen displays
Industry	Electroplating Chemistry Printing / Paper Water treatment Automotive / Mechanical engineering Adhesives Glass Agriculture
Pharmaceuticals / Biotechnology / Cosmetics / Foodstuffs	
Laboratories / Research institutes / Institutes
