

Strainer (Y-Strainer) E24004 – E24005 – E24006

plastics technology

Protect aggregates from pollutions by particles and damages.

Features:

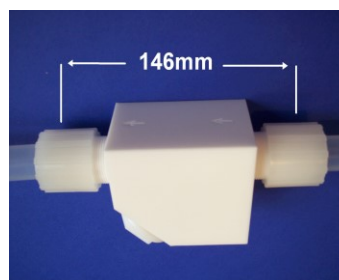

- Universal chemical resistance
- No metal parts and suitable for high purity liquids
- Flow favourable construction
- Low loss of pressure
- Suitable for clean rooms
- Removable filter basket
- Easy to clean

Technical Specifications:

Article	E24004	E24005	E24006
Material	PTFE		
Seal	Kalrez®		
Connectivity	Flare 1/2"	Flare 3/4"	Internal thread NPT 3/4"
Pressure max.	3 bar		
Temperature limit	50°C / 122°F		
Grain magnitude	0,5 * 1,0 * 1,5 * 2,0 mm		
Dimensions	160 x 80 x 45mm		
Weight	550g		

Unusual features:

Special connection by enquiry

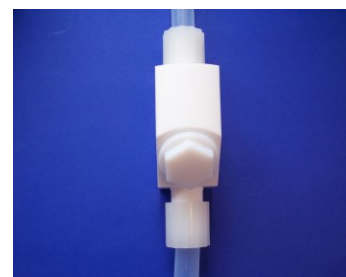

Length of Strainer

Removable filter basket

Simple installation

Flow favorable construction
